

**ALL COTTON SALES
MUST BE REPORTED**

Firms Having Outstanding Future Contracts After March 4 Must File Account's Expiration.

ACTION IS TAKEN BY BOARD

Conferences Result in Clearing Up Situation to Conform With New Law on Subject.

WASHINGTON, March 7.—No obligation will be made by the bureau of markets to bonafide cotton sales or purchases under old style contracts for the sole purpose of liquidating actually existing long or short interest provided such liquidation is accomplished not later than May 1, 1919, after which date all transactions must be new style contracts as provided in the law approved as follows:

Cotton having such outstanding interests on March 4 will be required to report their positions at once and to make daily reports of the number of sales sold or bought until their outstanding old style contracts are liquidated.

The question as to whether or not there can be tenders of old style contracts in liquidation of outstanding contracts existing prior to March 4 is open to serious doubt from a legal standpoint. As a practical matter it is sympathetic with the trade in making the amendment effective with approval of the act instead of later as originally contemplated.

In the circumstances no opposition will be made to bona fide sales or purchases of old style contracts for the sole purpose of liquidation of actually existing long or short interests provided such liquidation is accomplished not later than May 1, 1919, after which date all sales or purchases on exchange must be new style contracts.

The order that the treasury department may be constantly advised of the situation it will be necessary for each firm having any outstanding interest on March 4 to report either directly or through the clearing house in the cotton futures attorney at once its exact position each month and to report for each month a list of bales sold or docketed. In reduction of such outstanding interest, until all outstanding old style contracts have been entirely liquidated.

With reference to call transactions an examination of the act fails to disclose any language upon which the government would be warranted in issuing the ruling that new trades may be executed in old style contracts pursuant to call transactions."
